

Supply List

for Walking Foot Quilting Technique and Design

Instructor: Wendy Garrison

Saturday, June 17, 2017 9:00 a.m. - 4:30 p.m. @ the Doubletree Hotel

We will start out learning some tips and tricks to make walking foot quilting fun, and practice developing unique designs utilizing straight lines, gently curving lines, and even decorative machine stitches if you like. Then we'll create a small wholecloth entirely with walking foot quilting!

You will need:

- Sketch pad, pencil and ruler
- Sewing machine with a walking foot, and a regular straight stitch/decorative stitch foot
- 2 - 3 fat quarter size SOLID color practice sandwiches
- 21 x 21" quilt sandwich for your mini-wholecloth. Please select a SOLID (or "reads-as-solid") top fabric to show off your new quilting skills.
- Air erasable, water soluble, chalk, or iron off marker for marking temporary quilting design guidelines on your fabrics (*Please test your marker on your fabrics before class to be sure it is both clearly visible, and completely removeable!*)
- Square or rectangular quilting ruler (with 45, 30 and 60 degree markings if possible)
- 18 to 24" long quilting ruler
- A selection of contrasting and coordinating quilting threads. *You can use any thread types you choose for walking foot quilting; feel free to experiment!*
- Sewing machine needles in appropriate sizes for your threads
- Hand sewing needle with a large eye for burying thread ends

If you have some orphan blocks, or a quilt top ready to be quilted and would like to discuss walking foot design options in class, please bring it along.
