

Fun with Feathers!

Class Supply List

Skills, Equipment & Supplies Required for Class

- Basic Free Motion Quilting Skills - Some free motion quilting experience is needed; this is not a beginning free motion class. However, you don't need to be highly skilled, just able to set your machine up for free motion quilting, able to stitch a fairly smooth curve, and have enough control to be safe.
- Letter-size sketch pad or paper, and pencils or markers for practice drawing feathers before stitching.
- Sewing machine set up for free motioning with a free motion foot .
- Extension Table for Your Machine - A "Sew Steady Extension Table" works well, or if you have a portable sewing table, i.e. an Arrow Gidget or SewEzi sewing table fitted to your machine with an acrylic insert, that will also work nicely. Any setup that provides a smooth flat surface around the bed of the machine will work for free motion quilting.
- Your favorite free motion quilting supplies - i.e. Machingers gloves, Supreme Slider mat, water or air soluble markers or other removable marking markers/pencils, etc.
- Basic sewing kit - including thread trimming scissors, seam ripper, etc.
- Rotary Cutting Ruler - at least 12" long with 45 and 60 degree markings.
- Several Solid Color or Tone-on-Tone Practice Quilt Sandwiches - measuring at least 12" x 12".
- Machine Quilting Threads - a selection of machine quilting threads to blend and to contrast with your sample sandwiches.
- Machine Quilting Needles - of appropriate sizes for your threads; extra bobbins.
