

Sandwiching Quilts for Domestic Machine Quilting

Supply List

You are encouraged to bring your own quilt top to class to sandwich, *but if you prefer to observe only, no supplies are needed.*

Please bring:

- ❑ Quilt Top--Any size that measures less than 120" wide; pressed and ready to sandwich. *Irons will be available in class for touch-ups.*
- ❑ Quilt Backing--squared, pressed and ready to sandwich. *Please ensure that your prepared backing measures at least 6" wider and 6" longer than your quilt top.*
- ❑ Batting--Please take batting out of its bag and unfold it a day before class to allow the wrinkles to relax. *Ensure that your batting measures at least 6" wider and 6" longer than your quilt top.*
- ❑ 505 Basting Spray--1 large can will easily baste a medium-sized bed quilt. If your quilt is extra large, consider bringing 2 cans of 505. *If you prefer, you may bring pins for pin-basting, or needle and thread for thread-basting instead, although these methods are much more time-consuming than basting with 505 spray.*
